Maj. Gen. Claude A. Williams

Adjutant General of Virginia
Blackstone, Virginia

General J.H. Binford Peay, III officially became VMI's 14th Superintendent on July 1, 2003.

Peay, a 1962 graduate of the Institute, has served on several Institute boards over the years. His father and two sons are also VMI graduates.

He was most recently the Chairman of the Board, President and CEO of Allied Research Corporation in Vienna, Va.

Before joining Allied Research Corporation, Peay was a career U.S. Army officer who attained the rank of four-star general. His last two assignments were Vice Chief of Staff for the U.S. Army and Commander-in-Chief, United States Central Command. He directed strategic and operational matters in the Persian Gulf, Africa, South Asia and the Middle East.

As Commanding General of the 101st Airborne Division, Peay commanded the division during operations Desert Shield and Desert Storm. The general, a Vietnam combat veteran, has won numerous military awards and decorations including the Defense Distinguished Service Medal, the Army Distinguished Service Medal, the Silver Star and the Purple Heart.

"This is an exciting time in the Institute's history," said Samuel B. Witt, III, President of the VMI Board of Visitors. "General Peay is a man of high intellectual distinction with a demonstrated devotion to excellence in education, proven qualities of leadership, a capacity to guide VMI, and a dedication to the ideals and core values so prized and vital in this community."

On the eve of the Institute's 164th anniversary in November 2003, the Superintendent said he is taking a long-range approach while looking ahead to VMI's bicentennial.

"Forward we will go on our journey to the year 2039 and beyond," he said. "As our Founders knew so well, they were not building for the moment, they were building for the future. And so are we."

Peay said VMI should continue to set its sights on forming potential leaders for all walks of life, holding true to the Institute's historic mission inscribed on the Parapet.

"This is our primary commitment: the develop-

ment of honorable, informed and energetic young men and women," he said. "That will be our focus."

The Superintendent said in order to accomplish the goals, he will concentrate on four focus areas, the first of which is the physical and cultural environment. This area includes, among other things, growing the size of the Corps to 1,500 cadets, delivering an exciting construction program, and creating a Post that resonates with history.

"This includes some 'rebalancing' and/or growth in engineering and sciences to offset recent declines and to meet 21st century requirements," he said.

General Peay's third focus area is a leader-focused approach to athletics at the Institute where every cadet is an athlete and every athlete is a cadet.

"I see a more structured, resourced intramural program, growth in club sports, and expanded women's programs," he said. "This will enable us to build leaders and promote health and fitness."

The Superintendent's fourth area of focus deals with the military aspect of the VMI experience.

"A massive increase in commissioning, mostly Guard and Reserve, and a common four-year ROTC program for all whether a cadet takes a commission or not."

General Peay explained the importance of these goals and how they can lead to the immediate and future success of VMI.

"These four areas will require all of us to synchronize and integrate our daily actions and philosophies with the clear understanding of the wisdom of commonality of purpose," he said. "In 2039 we will celebrate our 200th anniversary, a short 35 years from tomorrow. How triumphant it will be depends on what we do here and now."

The most ambitious capital improvements to athletic facilities in 20 years is about to be launched under the *Vision 2039* initiative of VMI Superintendent General J.H. Binford Peay, and seventh year Athletic Director Donny White has been a guiding force in the process.

Over the next year, groundbreaking will take place for improvements to the football stadium, and a new 1,000 seat baseball stadium at Patchin Field is expected to open in time for the 2007 season.

Facilities improvement is just one issue that White has tackled since taking over as AD in 1998. Upon his return, White immediately went to work addressing the challenging issues facing the VMI athletic department. At the same time, he has built support for intercollegiate athletics among the VMI community and its alumni. His effort has resulted in a change in conference affiliation, increased funding for operations, the development of women's athletics, and a better overall competitive environment for VMI sports.

White returned to the Institute on Apr. 22, 1998, after serving six successful years as athletic director at Patrick Henry High School in Ashland, Va. White guided the school's athletic program to unprecedented achievement both on and off the field and led the efforts to improve funding and facilities for the school's athletic program.

White compiled a distinguished VMI coaching career in two sports spanning 15 years. He joined the football staff of Bob Thalman in 1971 as a defensive backfield coach and helped lead the Keydets to two Southern Conference Championships and a State Championship in 1977. White coached the defensive backs to a number one national ranking in 1975 and number four ranking the following season. He served as VMI co-defensive coordinator from 1976 to 1981 and had the Southern Conference's top-ranked defense in 1977. His defensive backfields led the conference in pass defense three times. White also recruited seven football players who were selected all-conference.

In the fall of 1981, White became VMI head baseball coach and began to resurrect a program that had not won a Southern Conference game the three previous years. His 1982 debut squad compiled six league wins and White was named Southern

Conference Co-Coach of the Year. His teams won 85 games in six years and his 1987 squad reached the Southern Conference championship game. While serving as baseball coach, White also taught on the Physical Education staff as an assistant professor.

White entered private business in 1987, but returned to the full-time athletic ranks in 1992 when he accepted the athletic director position at Patrick Henry. White supervised all areas of the Patriot athletic program and helped improve facilities, season ticket sales, and booster club membership. The football program reached the ranks of the state's elite, winning 57 of 65 games, five district titles, four regional titles, a state runner-up trophy, and the state AAA, Division 5 championship in 1994.

White is a 1965 graduate of VMI with a B.S. degree in civil engineering. As a cadet, he was a Distinguished Military Student, named Who's Who in American Colleges and Universities, and was awarded the Pres. Brown Athletic Cup for excellence. White co-captained the 1964 VMI football team and was selected All-Southern Conference in baseball for three consecutive years as a shortstop while also leading the team in batting. He was inducted into the VMI Sports Hall of Fame in 1975.

After graduation from VMI, White was commissioned as a field artillery officer in the U.S. Army and served a tour of duty in Vietnam. His decorations include the Bronze Star, Purple Heart, and Air Medal with four oak leaf clusters.

White and his wife, Bettie reside in Lexington.
